

**CONSULTANCY**  
**MATERNAL HEALTH TECHNICAL ADVISOR**

**Background:**

Solthis is currently looking for a consultant to provide technical inputs regarding the strengthening of maternal health service delivery in the context of a proposal development to prevent and treat postpartum hemorrhage (PPH) in Western Africa.

**Consultancy**

The Consultant is expected to fulfill the following tasks in close interaction with Solthis team :

- Participate to internal workshops to define project content and provide inputs regarding service delivery strengthening for PPH (objectives, activities, monitoring & evaluation)
- Represent Solthis for any technical discussions with stakeholders (WHO, UNFPA...) during proposal development
- Contribute to proposal drafting (context, strategy and activities)

**Profile:**

- Expertise in RMNCH with a focus on maternal health (medical/paramedical/public health diploma)
- 5 years of experience working on RMNCH in ressources limited countries, including experience in Western Africa
- Specific working experience on PPH
- French and English fluent

**Conditions:**

Location: remote work

Contract duration: up to 10 days of consultancy between March and early April

**Submission of applications:**

Please send your application in English (CV, financial offer will indicate the proposed day/man rate (excluding VAT and including tax) to [camille.estevenin@solthis.org](mailto:camille.estevenin@solthis.org) quoting reference "MATERNAL HEALTH TECHNICAL ADVISOR", by March 12th, 2021 before noon (Paris time).
